nm_4500_fix9.sql	3.0
v_nm_gaz_query_attribs_saved.vw	3.2

## Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Bentley Support
- Issues raised internally by Bentley

### Issues

Internal Task ID	Issue	Support Log(s)
0112013	Searches that are configured and saved in Locator are built from meaningful attribute names but when the saved searches are reviewed, the attributes are shown in their specific table/attribute name which is often meaningless to the user. The saved searches are now shown with meaningful attribute names in the same way as when the search is being built.
