## Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Exor Support
- Issues raised internally by Exor

### Issues

Internal Task ID	Issue	Support Log(s)
0112080	When creating asset views with the INVVIEWSLK option set, the system creates a view which delivers route-based measures on each asset member location. The end SLK values were corrupted due to a faulty decode statement which missed commas. These have been corrected.	8001401894
