After reading through this document, should you have any further training or consultancy requirements then please contact your **Bentley** account manager.

Fix Details

Baseline Release	4.5.0.0
Fix Description	Network Manager 4.5.0.0 Fix 4 Patchset. Hig1832 (User Form) fixes issue when copying users with roles.
Prerequisites	
Implementation Instructions	Unzip nm_4500_fix4.zip to a staging folder. Go to the relevant exor\bin directory on the Oracle Weblogic Server and rename the following file:- hig1832.fmx to hig1832_old.fmx Then copy in the new version of this file from the staging folder. Log onto SQL*PLUS as the Highways Owner with the staging folder as the working directory. At the prompt type "START log_nm_4500_fix4.sql" and press return. Exit SQL*PLUS.
Limitations	None known
Configuration Information	None
How To Test	Recommend full regression test
Rollback Strategy	Initially implement on a test environment

List of Amended Files

Filename	Version
log_nm_4500_fix4.sql	3.0
hig1832.fmx	5.1.1.0

Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Bentley Support
- Issues raised internally by Bentley

Issues

	Issue	Support Log(s)
0111973	<p>The hig_users form hig1832 previously had a problem in the activation of the copy-user button and, after activation the tool could display error/warning message repeatedly. The functionality did complete successfully. This version removes the messages and includes all the previous fixes.</p> <p>The copy user function will not be available if the form is executed in query-only mode or if the user in scope has been de-activated/end-dated.</p> <p>A restricted user may not copy and unrestricted user.</p>
