

Network Manager

Release Notes v4.4.0.0 Fix 32

Introduction

This document defines the changes made to the Network Manager product for fix release v4.4.0.0 Fix 32 and is specifically targeted at end users.

After reading through this document, should you have any further training or consultancy requirements then please contact your **exor** account manager.

Fix Details

Baseline Release	4.4.0.0
Fix Description	Under some circumstances, route shapes could be removed on closure of the route, despite the theme being labelled as using history. The bug was introduced under nm_4400_fix22 after it was apparent that route shape history was becoming corrupt. This fix includes all fixes applied in 4400 fixes 22, 11, 9.
Prerequisites	
Implementation Instructions	Unzip nm_4400_fix32.zip to a staging folder. Log onto SQL*PLUS as the Highways Owner with the staging folder as the working directory. At the prompt type "START nm_4400_fix32.sql" and press return. Exit SQL*PLUS.
Limitations	None known
Configuration Information	None
How To Test	Recommend full regression test
Rollback Strategy	Initially implement on a test environment

List of Amended Files

Filename	Version
nm3sdm.pkw	2.39.1.6

Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Exor Support
- Issues raised internally by Exor

Issues

Internal Task ID	Issue	Support Log(s)
0112176	Failure to keep route shape on close – under some circumstances some code would fail to insert route shapes with a close-date during the closure of the route	8001446105
