## Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Exor Support
- Issues raised internally by Exor

### Issues

Internal Task ID	Issue	Support Log(s)
0110835	Previously contiguity checks did not take distances breaks into account which would result in an incorrect error when locating an asset on a route with a distance break.	716375 8001029192
