nm_4054_fix74.sql	3.0

Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Bentley Support
- Issues raised internally by Bentley

Issues

Internal Task ID	Issue	Support Log(s)
0111471	Change to the validation of the admin-unit of a distance break. Prior to the fix a distance break would be prevented from being closed when the admin type of the route network differed to that of the datum type of its members.	8001170894
