log_nm_4301_fix4.sql	3.0
nm3sde.pkw	2.11.1.0
nm_4301_fix4.sql	3.0

Log No. Summary

This chapter summarises all software changes that have been made in this release.

These changes are derived from the following sources,

- Issues raised by Customers via Bentley Support
- Issues raised internally by Bentley

Issues

Internal Task ID	Issue	Support Log(s)
0111310	Registration of a table with geometries that contain LRS data fails if the table/theme does not relate to other network (or assets that relate to network). The original code makes an attempt to ascertain an accurate value for MUNITS but when no units can be derived it fails. The new code will revert back to a default value based on the default units of metres	8001122779
